

We evaluate our services and publish research to improve our support to people

Research and evaluation have been at the heart of Elmore's work since our founding in 1989.

We seek to uncover the facts about life for Elmore's clients and monitor and evaluate our services and their impact.

Podcasts are a great way to open up discussions

Elmore is publishing podcasts to keep partners in the know about our latest research, speak with experts, and open up discussions about our services. Listen to our podcasts below, including conversations with the then-UK's Independent Anti-Slavery Commissioner, Elmore managers, and colleagues from NHS and social work partners.

Elmore Community Services

We're a Thames Valley charity providing high-quality mental health, complex needs, and domestic abuse services.

With our creative and flexible approach, we seek to engage people with multiple and complex needs who fall through the gaps of services.

Our Partnerships

Elmore is a founding member of the Oxfordshire Mental Health Partnership, the Oxfordshire Homelessness Alliance, and the Family Solutions Plus Partnership, and co-chairs the Oxfordshire Anti-Slavery Network.

Our Services

Mental Health

Complex Needs

High Intensity Need

Homelessness prevention

Support for victimised and exploited people

Domestic Abuse (victim/survivor and perpetrator interventions)

Our Vision

Everyone is treated with dignity and humanity and feels able to look to the future with hope. Society meets the human needs we all share and becomes stronger as a result.

Services are sufficiently funded to flexibly engage and support people with complex needs, mental ill health, a lack of shelter, and trauma because of domestic abuse, sexual violence, and exploitation. Nobody feels pushed to the brink by the pressures in their lives.

Our Mission

To hold the hope for people, supporting and standing alongside them, so that they know they aren't on their own and feel empowered to look to the future.

To provide clients with the tools and support they need to achieve their potential and facilitate other services to support people and close the gaps that they might fall through.

To help eliminate exploitation and increase understanding about people's needs and hopes.
